APPLICATION FOR ELECTRICAL SERVICE

(For Reconnection of Existing Facilities)

The undersigned (hereinafter designated as "Customer"), hereby makes application to Seward County Public Power District, Seward, Nebraska (hereinafter designated as "District") for electrical service to the premises described below, upon the terms and conditions hereinafter provided, and in accordance with the rules, regulations and rates of the District from time to time in force and effect:

Type of Service Required: _____ Monthly _____
Primary Use of Premises: _____ Seasonal _____
Rate Schedule: _____ Customer is () owner or () tenant

The minimum monthly or seasonal bill, and the minimum total billing for the contract period, is specified in the rate schedule and future amendments thereto, which is a part of this agreement by reference. Customer must pay a security deposit prior to transfer/connection of the facilities. The security deposit will be held for a period of 24 months and returned, provided the payment history warrants the action (in accordance with District policies). A connection fee will be billed on the customer's initial billing. The undersigned customer hereby agrees to pay fourteen percent (14%) per annum on any monthly balance carried forward to the next month. Estimated accounts will be prorated at current month's billing rate.

The security deposit is: \$ _____ Account #: _____

The District will endeavor to provide electrical service to the metering point. The District will not provide service or maintenance work beyond the point of metering. The Customer hereby agrees to maintain the electrical lines and equipment beyond the metering point, and to assure that they are in adequate condition for connection of electrical power, and will obtain services of a licensed electrician for such purposes. Customer further agrees to comply with all District rules and regulations regarding payment of accounts, safety code and requirements, and other requirements of the District. Electrical energy furnished by the District shall become the property and responsibility of the Customer at the metering point, and the Customer shall be responsible to purchase all metered electricity (or estimated usage in the event of meter failure). Customer assumes all liability for damages resulting from or arising out of the electrical energy after it passes the metering point, and agrees to indemnify and hold the "District" harmless from any liability therefor.

The District may terminate service by reason of noncompliance with rules and regulations of the District, or upon failure of the Customer to pay for electrical usage in accordance with the rate schedules and policies of the District. Interest charges, disconnection charges, and other charges may be assessed by reason of unpaid accounts following the payment due date in accordance with District regulations.

The District shall not be responsible for damages beyond the meter resulting from a failure of power supply, surge of electrical voltage, or other cause, provided such damages are not the result of gross negligence on the part of the District or its employees. Customer hereby agrees to indemnify and hold the District harmless from any and all such liability.

The District is hereby granted a right of access to Customer's premises for any reasonable purpose in providing electrical service to the Customer, or for the purpose of maintaining the District's electrical distribution/transmission lines upon said property (including the trimming of trees interfering with District lines or the Customer's service). If applicant for service is not the owner of said premises, the renting customer shall obtain the written permission of the owner(s) effectively authorizing access to the premises as herein provided.

If Customer desires a change of rate class, the customer must make application therefor in writing for approval by the District. The District reserves the right to approve or disallow such requests in accordance with its established regulations. Customer shall notify the District in writing of any change of conditions which would place Customer in a different rate classification. Applicant shall be responsible for compliance with all zoning, subdivision and building regulations pertaining to the property for which electrical service is requested.
